

**Digital Art Society of Hawai'i  
Web Portfolio**

**Submitting Images for your Web Portfolio**

**First Submission:**

1. Please email your images to me at [dubanosk@earthlink.net](mailto:dubanosk@earthlink.net)
2. Images should be approximately **640 x 480, 72 dpi in .jpg format**. The easiest way is to use Photoshop "Save for web" specifying the dimensions above, or any program or app that will accomplish this.
3. Let's start with about 10-20 images for the first submission.
4. Name images as you want them to appear on the web, e.g., **Blue Banana.jpg, not Bbanana.jpg, image10.jpg, etc.** This will save time in creating your portfolio and save you creating a separate image list.
5. To maintain privacy, artist contact will be available through the Membership/Contact page.

**Updates, Deletions, Additions:**

1. If you would like to make changes in your portfolio, please email your requirements.
2. Please use the dimensions listed above and the same manner of applying titles to new images.

**Mahalo for your support in helping me with the correct files!**
